SUMMARY

Computer Science undergraduate specializing in full-stack MERN development and AI-integrated web applications. Shipped 4 production-grade projects leveraging Groq Llama 3 and LLM APIs; 2× Smart India Hackathon qualifier and GSSoC 2025 open-source contributor.

TECHNICAL SKILLS

Languages: Python, JavaScript, C, Core Java
Frontend: React.js, HTML, CSS, Tailwind CSS, Framer Motion
Backend: Node.js, Express.js, REST APIs, JWT
Database: MongoDB, MySQL
Tools: Git, GitHub, VS Code, Vercel, Render

PROJECTS

- VoiceDoc – AI Medical Scribe** | [Live](#) | [GitHub](#) Apr 2026 – May 2026
React, Node.js, Express.js, MongoDB, Groq Llama 3, Tailwind CSS
 - Built a production-level real-time AI medical scribe supporting bilingual (Hindi–English) code-switching; transcribes clinical consultations and auto-generates structured SOAP notes and PDF prescriptions using Groq Llama 3, reducing post-consultation documentation time by an estimated 50%.
 - Engineered an EHR dashboard with interactive health-trend charts, debounced live patient search, and one-click PDF export; secured with JWT authentication, encrypted MongoDB storage, and role-based access control.
- ElevateU – AI Personal Development Platform** | [Live](#) | [GitHub](#) Feb 2026 – Apr 2026
React, Node.js, Express.js, Groq API, MongoDB, JWT
 - Engineered a three-module platform — AI Outfit Scanner, Event Preparation Guide, and AI Communication Trainer with chatbot and quiz module — serving as a unified self-improvement tool.
 - Integrated Groq API for outfit analysis with feedback across 4 categories; secured the backend with JWT auth, Bcryptjs, and MongoDB persistence.
- SkillMirror – AI Student Performance Evaluator** | [Live](#) | [GitHub](#) Oct 2025 – Nov 2025
React, Python, Flask, Tailwind CSS
 - Developed an adaptive quiz engine covering 6 CS domains with 600+ questions across 10 progressive difficulty levels and Perception Gap Analysis comparing self-assessed vs. actual skill levels.
 - Designed a gamification layer featuring 20+ badges, XP points, streaks, and leaderboards; persisted all data client-side at zero backend cost.
- CJ – AI Desktop Assistant** | [Live](#) | [GitHub](#) Jul 2025
Python, Node.js, React, Groq API, SpeechRecognition, pyttsx3
 - Architected a voice-controlled AI desktop assistant with a persistent memory system, system control (app launching, file management), and smart reminders powered by Groq API (Llama 3).
 - Delivered dual personality modes, male/female voice selection, and a React glassmorphism dashboard; shipped the full product solo in under 4 weeks.

EDUCATION

Medi-Caps University Aug 2023 – May 2027
B.Tech in Computer Science & Engineering | CGPA: 8.57 Indore, Madhya Pradesh

ACHIEVEMENTS & ACTIVITIES

- **GirlScript Summer of Code (GSSoC) 2025** — Recognized as Tech Contributor for open-source contributions.
- **Smart India Hackathon (SIH)** — Cleared the college-level selection round in both 2nd and 3rd year of B.Tech.
- **Quasar Hackathon** — Selected for Round 2, conducted at Medi-Caps University by 47 Billion.
- **Google Arcade Facilitator Program 2025 (Cohort 2)** — Achieved Trooper-level recognition for completing cloud-based technical challenges.

CERTIFICATIONS

- **CCNA: Enterprise Networking, Routing & Switching** — Cisco NetAcad
- **Python Essentials 1 & 2** — Cisco NetAcad / Python Institute
- **Introduction to Data Science & Modern AI** — Cisco NetAcad
- **Complete Git & GitHub** — Geekster
- **Cybersecurity Essentials (Cyber 1 & 2)** — Cisco NetAcad
- **JavaScript Essentials 1 & 2** — Cisco NetAcad
- **Data Structures & Algorithms in Java** — Physics Wallah
- **Applied AI** — Medi-Caps University
